### PROFILE

I am a recent computer science graduate looking to build things that I've on the internet. My passion is in building exceptional digital experiences through accessible human-centered products. my goal is to start a career focused on creating responsive and scalable web apps that solve interesting everyday problems that delight end-users.

### EXPERIENCE

#### Internship

PT Empat Perdana Carton  
(September - December 2021)

Build an application that can manage order data, finished goods stock data, and web-based delivery data.

### EDUCATION

#### Bachelor of Computer Science

STMIK Horizon Karawang (2018 - 2022)
